ANALYSIS

The subject properties are located within the Southeast Sector of the General Plan. This proposed General Plan Amendment, if approved, would allow a SC (Service Commercial) land use designation. The Service Commercial category allows low to medium intensity retail, office, or other commercial uses that serve primarily local area patrons, and that do not include more intense general commercial characteristics. Examples include neighborhood shopping centers, theaters, and other places of public assembly and public and semi-public uses. This category also includes offices either singly or grouped as office centers with professional and business services. The Service Commercial category may also allow mixed-use development with a residential component where appropriate.

There is a Rezoning (ZON-27311) to change the site's zoning from R-2 (Medium-Low Density Residential) to C-1 (Limited Commercial). The C-1 District is intended to provide most retail shopping and personal services, and may be appropriate for mixed use developments. This district should be located on the periphery of residential neighborhoods and should be confined to the intersections of primary and secondary thoroughfares along major retail corridors. The C-1 District is consistent with the Service Commercial and the Neighborhood Center categories of the General Plan.

With approval of this proposed General Plan Amendment to the SC (Service Commercial) land use designation and Rezoning (ZON-27311) to the C-1 (Limited Commercial) zoning district, the proposed General Retail and Medical Office uses associated with this development are permissible uses. In addition, a Site Development Plan Review (SDR-27314) for a proposed 17,550 square-foot retail and office development with Waivers of the perimeter landscape requirements has been requested.

West Las Vegas Plan

- **Land Use Policy**

Identify vacant and underutilized lands and pursue compatible residential and commercial infill development opportunities, including potential locations for neighborhood serving commercial development that is within walking distance of residences.

FINDINGS

Section 19.18.030.I of the Las Vegas Zoning Code requires that the following conditions be met in order to justify a General Plan Amendment:

1. The density and intensity of the proposed General Plan Amendment is compatible with the existing adjacent land use designations,
2. The zoning designations allowed by the proposed amendment will be compatible with the existing adjacent land uses or zoning districts,
3. There are adequate transportation, recreation, utility, and other facilities to accommodate the uses and densities permitted by the proposed General Plan Amendment; and
4. The proposed amendment conforms to other applicable adopted plans and policies that include approved neighborhood plans.

In regard to “1”:

The proposed SC (Service Commercial) land use designation is compatible with the existing SC (Service Commercial) land use designations to the west of the subject site.

In regard to “2”:

With the approval of the associated request for a Rezoning (ZON-27311) to the C-1 (Limited Commercial) zoning district, this proposal will be consistent with the surrounding uses and is appropriate given the proximity of the site to Lake Mead Boulevard and Martin L King Boulevard, which are both 100-foot right-of-ways.

In regard to “3”:

Site access is adequately provided by Lake Mead Boulevard, classified as a 100-foot wide Primary Arterial by the Master Plan Streets and Highways, through a centrally located driveway at the front of the property.

In regard to “4”:

The proposal is accordance with policies of the West Las Vegas Plan, which calls for the identification of vacant and underutilized lands and pursuit of compatible residential and commercial infill development opportunities, including potential locations for neighborhood serving commercial development that are within walking distance of residences.
